

# Hunger for innovation? Dinner is served!

Long time no see,  
let's reconnect with sausage, mustard and horseradish.

Finally a trade fair again and one thing is clear, never before have the visitors been so electrified as here. This is also true for us!

Before your charge depletes and hunger takes over, we invite you to a round of sausages with mustard on the:

**Automotive Testing Expo Europe**  
June 4th to 6th, 2024

Fairgrounds Stuttgart, Hall 10  
Booth #1318

At the cozy get-together you can recharge your batteries and quench your thirst for knowledge. Get an impression of which new innovations will inspire your development and production. We will reveal some of our innovations in advance:

-  Engineering and measurement technology in the field of E-NVH
-  Powertrain components for vehicle development and test benches
-  E-mobility and special test benches such as E-axle test benches, high-speed solutions and NVH test benches.
